1. Claims 1,2, 4-17 are allowed. The restriction requirement, as set forth in the Office action mailed on 8/5/06, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 12-17, directed to a method of making a non-woven fabric are no longer withdrawn from consideration because the claim(s) require all the limitations of an allowable claim. In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

2. The following is an examiner's statement of reasons for allowance: The primary reason for allowance is that Mizoguchi requires that the soft segments of the polyurethane include: 1) polycarbonate diol containing a hydrocarbon having 5 or 6 carbon atoms, 2) a polyester diol containing a tetramethylene group, and 3) a polyester diol having a  $-(O-CH_2CH_2)_2-O$  functional group and a functional group including 4 to 8

carbon atoms and there is no motivation found to limit the soft segments to the two claimed components as required by the instant claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
